Data protection training: WEKA trusts us!

We feel honored that WEKA (a leading company in the field of knowledge management and legal training) trusted us by inviting Philippe Gilliéron to train the internal teams of CARITAS Suisse Romande in data protection.

Receiving a basic training in data protection and having solid guidelines to set up a data protection management program in one day is possible! Do not hesitate to contact us if you are interested. We will be happy to discuss about any form of support we may provide to you on that regard.
